

Head coaches vs the engine

Version 1.0.0. Generated by `build/render_reports.py` from `data/coach_grades.json`. Method: white paper, section 5.

44,936 fourth downs, 2014–2026. The model is fit on 2014–2025; 2026 calls are out of sample. Grades rank each coach's confident-mistake cost per game against all 85 head coaches with at least 17 games in the data. Luck is what happened after the coach's calls minus what those calls were expected to produce; it says nothing about decision quality.

Grade	Coach	Team(s)	Games	4th downs	Confident mistakes	Wins lost / 17 games [90% CI]	All disagreements / 17	Went when engine said go	Luck (wins)
A+	Liam Coen	JAX	22	134	22	0.35 [0.19– 0.52]	0.46	53%	-0.32

Each coach: the calls played twice

Liam Coen — A+

134 fourth downs in 22 games (2025–2026). Went for it 21%; the engine would have gone 22%. Agreed on 63% of calls. 22 confident mistakes (fg->go ×4, go->fg ×1, go->punt ×1, punt->fg ×3, punt->go ×13).

On the 50 disagreements, his calls were expected to leave a 55.7% average win chance and the engine's 56.9%. After his calls the team actually stood at 55.6%.

Costliest calls:

- 2025 wk 2 JAX vs CIN, Q4 6:09, up 3, 4th & 2 at opp 47: punt (engine: go), cost 8.5 WP pts, 95% of replicates agree.
- 2025 wk 4 JAX vs SF, Q3 6:22, up 3, 4th & 7 at opp 43: punt (engine: fg), cost 5.9 WP pts, 95% of replicates agree.
- 2025 wk 6 JAX vs SEA, Q4 5:52, down 8, 4th & 6 at own 41: punt (engine: go), cost 3.9 WP pts, 100% of replicates agree.

Todd Monken — Incomplete

29 fourth downs in 4 games (2026–2026). Went for it 21%; the engine would have gone 31%. Agreed on 55% of calls. 7 confident mistakes (fg->go ×5, go->punt ×1, punt->go ×1).

On the 13 disagreements, his calls were expected to leave a 28.8% average win chance and the engine's 29.8%. After his calls the team actually stood at 29.9%.

Costliest calls:

- 2026 wk 3 CLE vs CAR, Q2 5:48, tied, 4th & 4 at opp 29: fg (engine: go), cost 3.5 WP pts, 90% of replicates agree.
- 2026 wk 4 CLE vs PIT, Q4 6:42, up 5, 4th & 2 at opp 26: fg (engine: go), cost 2.1 WP pts, 100% of replicates agree.
- 2026 wk 2 CLE vs TB, Q1 7:17, down 3, 4th & 6 at opp 32: fg (engine: go), cost 2.1 WP pts, 100% of replicates agree.

Jeff Hafley — Incomplete

25 fourth downs in 4 games (2026–2026). Went for it 24%; the engine would have gone 28%. Agreed on 44% of calls. 5 confident mistakes (fg->go ×3, punt->go ×2).

On the 14 disagreements, his calls were expected to leave a 10.9% average win chance and the engine's 12.1%. After his calls the team actually stood at 10.3%.

Costliest calls:

- 2026 wk 1 MIA vs LV, Q2 4:12, down 10, 4th & 2 at opp 23: fg (engine: go), cost 6.0 WP pts, 100% of replicates agree.
- 2026 wk 4 MIA vs MIN, Q3 11:58, down 9, 4th & 8 at opp 9: fg (engine: go), cost 1.2 WP pts, 95% of replicates agree.
- 2026 wk 1 MIA vs LV, Q4 12:32, down 14, 4th & 10 at own 20: punt (engine: go), cost 1.2 WP pts, 100% of replicates agree.

Mike Macdonald — A+

266 fourth downs in 41 games (2024–2026). Went for it 13%; the engine would have gone 28%. Agreed on 61% of calls. 43 confident mistakes (fg->go ×13, go->fg ×1, go->punt ×1, punt->go ×28).

On the 104 disagreements, his calls were expected to leave a 57.6% average win chance and the engine's 59.2%. After his calls the team actually stood at 57.4%.

Costliest calls:

- 2024 wk 14 SEA vs ARI, Q1 4:44, down 7, 4th & 2 at opp 2: fg (engine: go), cost 8.1 WP pts, 100% of replicates agree.
- 2025 wk 2 SEA vs PIT, Q2 7:11, up 1, 4th & 1 at opp 49: punt (engine: go), cost 6.7 WP pts, 100% of replicates agree.
- 2025 wk 5 SEA vs TB, Q2 11:29, down 6, 4th & 5 at opp 44: punt (engine: go), cost 6.1 WP pts, 100% of replicates agree.

Dan Campbell — A+

600 fourth downs in 93 games (2021–2026). Went for it 32%; the engine would have gone 36%. Agreed on 60% of calls. 117 confident mistakes (fg->go ×27, fg->punt ×2, go->fg ×3, go->punt ×10, punt->fg ×8, punt->go ×67).

On the 243 disagreements, his calls were expected to leave a 49.8% average win chance and the engine's 51.3%. After his calls the team actually stood at 49.8%.

Costliest calls:

- 2024 wk 2 DET vs TB, Q4 0:06, down 4, 4th & 10 at opp 26: go (engine: fg), cost 8.1 WP pts, 100% of replicates agree.
- 2025 wk 12 DET vs NYG, Q4 9:54, down 3, 4th & 9 at opp 44: punt (engine: fg), cost 7.1 WP pts, 100% of replicates agree.
- 2023 wk 21 DET vs SF, Q2 0:10, up 14, 4th & 3 at opp 3: fg (engine: go), cost 6.9 WP pts, 95% of replicates agree.

Matt LaFleur — A+

765 fourth downs in 130 games (2019–2026). Went for it 22%; the engine would have gone 32%. Agreed on 60% of calls. 142 confident mistakes (fg->go ×45, go->fg ×8, go->punt ×1, punt->fg ×6, punt->go ×82).

On the 305 disagreements, his calls were expected to leave a 57.3% average win chance and the engine's 59.0%. After his calls the team actually stood at 57.6%.

Costliest calls:

- 2026 wk 2 GB vs NYJ, Q4 0:02, tied, 4th & 10 at 50: go (engine: fg), cost 19.5 WP pts, 100% of replicates agree.
- 2024 wk 18 GB vs CHI, Q4 7:42, down 8, 4th & 4 at own 40: punt (engine: go), cost 10.4 WP pts, 100% of replicates agree.
- 2024 wk 18 GB vs CHI, Q2 2:00, down 4, 4th & 4 at opp 12: fg (engine: go), cost 8.5 WP pts, 100% of replicates agree.

Nick Sirianni — A+

643 fourth downs in 99 games (2021–2026). Went for it 24%; the engine would have gone 33%. Agreed on 59% of calls. 122 confident mistakes (fg->go ×35, go->fg ×9, go->punt ×4, punt->fg ×6, punt->go ×68).

On the 265 disagreements, his calls were expected to leave a 61.6% average win chance and the engine's 63.1%. After his calls the team actually stood at 61.6%.

Costliest calls:

- 2021 wk 17 PHI vs WAS, Q2 2:14, down 6, 4th & 4 at opp 45: punt (engine: go), cost 9.1 WP pts, 100% of replicates agree.
- 2025 wk 13 PHI vs CHI, Q2 5:07, down 7, 4th & 3 at own 37: punt (engine: go), cost 8.5 WP pts, 100% of replicates agree.

- 2025 wk 5 PHI vs DEN, Q4 5:13, down 1, 4th & 8 at own 45: punt (engine: go), cost 7.7 WP pts, 100% of replicates agree.

Sean McDermott — A+

1020 fourth downs in 168 games (2017–2026). Went for it 19%; the engine would have gone 33%. Agreed on 56% of calls. 221 confident mistakes (fg->go ×64, fg->punt ×3, go->fg ×3, go->punt ×3, punt->fg ×14, punt->go ×134).

On the 451 disagreements, his calls were expected to leave a 54.0% average win chance and the engine's 55.6%. After his calls the team actually stood at 54.1%.

Costliest calls:

- 2021 wk 14 BUF vs TB, Q4 0:25, down 3, 4th & 2 at opp 7: fg (engine: go), cost 13.3 WP pts, 95% of replicates agree.
- 2021 wk 9 BUF vs JAX, Q4 1:11, down 3, 4th & 16 at opp 48: go (engine: fg), cost 9.0 WP pts, 100% of replicates agree.
- 2018 wk 6 BUF vs HOU, Q4 4:08, up 3, 4th & 2 at own 41: punt (engine: go), cost 8.9 WP pts, 100% of replicates agree.

Kevin O'Connell — A+

493 fourth downs in 74 games (2022–2026). Went for it 18%; the engine would have gone 31%. Agreed on 57% of calls. 94 confident mistakes (fg->go ×27, go->fg ×2, go->punt ×2, punt->fg ×4, punt->go ×59).

On the 213 disagreements, his calls were expected to leave a 49.7% average win chance and the engine's 51.3%. After his calls the team actually stood at 49.5%.

Costliest calls:

- 2024 wk 7 MIN vs DET, Q4 2:41, up 1, 4th & 4 at own 28: punt (engine: go), cost 16.5 WP pts, 100% of replicates agree.
- 2023 wk 9 MIN vs ATL, Q1 2:23, down 3, 4th & 1 at opp 1: fg (engine: go), cost 8.6 WP pts, 100% of replicates agree.
- 2023 wk 5 MIN vs KC, Q2 8:05, down 7, 4th & 4 at opp 11: fg (engine: go), cost 7.8 WP pts, 100% of replicates agree.

Brian Schottenheimer — A

127 fourth downs in 21 games (2025–2026). Went for it 29%; the engine would have gone 42%. Agreed on 62% of calls. 26 confident mistakes (fg->go ×14, punt->go ×12).

On the 48 disagreements, his calls were expected to leave a 41.4% average win chance and the engine's 43.3%. After his calls the team actually stood at 41.6%.

Costliest calls:

- 2026 wk 4 DAL vs HOU, Q1 5:13, down 7, 4th & 5 at opp 21: fg (engine: go), cost 6.5 WP pts, 100% of replicates agree.
- 2025 wk 13 DAL vs KC, Q2 10:27, down 7, 4th & 3 at opp 31: fg (engine: go), cost 5.8 WP pts, 100% of replicates agree.
- 2025 wk 8 DAL vs DEN, Q2 2:25, down 10, 4th & 1 at own 29: punt (engine: go), cost 5.0 WP pts, 90% of replicates agree.

Jonathan Gannon — A

357 fourth downs in 55 games (2023–2026). Went for it 23%; the engine would have gone 34%. Agreed on 51% of calls. 80 confident mistakes (fg->go ×34, go->fg ×4, go->punt ×3, punt->fg ×3, punt->go ×36).

On the 176 disagreements, his calls were expected to leave a 26.6% average win chance and the engine's 28.2%. After his calls the team actually stood at 26.6%.

Costliest calls:

- 2026 wk 1 ARI vs LAC, Q4 14:04, up 2, 4th & 1 at own 40: punt (engine: go), cost 9.2 WP pts, 100% of replicates agree.
- 2024 wk 5 ARI vs SF, Q4 1:40, down 2, 4th & 3 at opp 16: fg (engine: go), cost 8.8 WP pts, 95% of replicates agree.
- 2025 wk 13 ARI vs TB, Q3 7:50, down 7, 4th & 3 at opp 25: fg (engine: go), cost 8.1 WP pts, 100% of replicates agree.

Kyle Shanahan — A

977 fourth downs in 167 games (2017–2026). Went for it 16%; the engine would have gone 31%. Agreed on 51% of calls. 232 confident mistakes (fg->go ×65, fg->punt ×1, go->fg ×11, go->punt ×1, punt->fg ×14, punt->go ×140).

On the 482 disagreements, his calls were expected to leave a 56.9% average win chance and the engine's 58.6%. After his calls the team actually stood at 57.2%.

Costliest calls:

- 2017 wk 6 SF vs WAS, Q4 0:09, down 2, 4th & 20 at 50: go (engine: fg), cost 28.2 WP pts, 100% of replicates agree.
- 2018 wk 6 SF vs GB, Q4 5:45, up 7, 4th & 1 at own 13: punt (engine: go), cost 11.4 WP pts, 100% of replicates agree.
- 2021 wk 20 SF vs GB, Q3 8:18, down 7, 4th & 4 at opp 11: fg (engine: go), cost 8.3 WP pts, 100% of replicates agree.

Kellen Moore — A

154 fourth downs in 21 games (2025–2026). Went for it 27%; the engine would have gone 38%. Agreed on 55% of calls. 28 confident mistakes (fg->go ×13, fg->punt ×1, go->punt ×2, punt->fg ×1, punt->go ×11).

On the 70 disagreements, his calls were expected to leave a 23.6% average win chance and the engine's 25.2%. After his calls the team actually stood at 22.7%.

Costliest calls:

- 2025 wk 10 NO vs CAR, Q1 2:55, down 7, 4th & 2 at opp 2: fg (engine: go), cost 6.6 WP pts, 100% of replicates agree.
- 2026 wk 1 NO vs DET, Q4 7:45, down 7, 4th & 4 at opp 10: fg (engine: go), cost 6.5 WP pts, 100% of replicates agree.
- 2025 wk 14 NO vs TB, Q3 1:36, down 3, 4th & 5 at opp 12: fg (engine: go), cost 5.9 WP pts, 100% of replicates agree.

Dan Quinn — A

807 fourth downs in 131 games (2015–2026). Went for it 20%; the engine would have gone 35%. Agreed on 54% of calls. 192 confident mistakes (fg->go ×71, go->fg ×3, go->punt ×4, punt->fg ×18, punt->go ×96).

On the 369 disagreements, his calls were expected to leave a 50.6% average win chance and the engine's 52.4%. After his calls the team actually stood at 51.0%.

Costliest calls:

- 2015 wk 9 ATL vs SF, Q4 3:00, down 4, 4th & 1 at opp 1: fg (engine: go), cost 18.1 WP pts, 100% of replicates agree.
- 2016 wk 2 ATL vs LV, Q2 0:40, up 3, 4th & 2 at opp 2: fg (engine: go), cost 9.1 WP pts, 100% of replicates agree.
- 2018 wk 13 ATL vs BAL, Q3 8:47, down 3, 4th & 1 at own 34: punt (engine: go), cost 8.2 WP pts, 100% of replicates agree.

Dave Canales — A

268 fourth downs in 39 games (2024–2026). Went for it 30%; the engine would have gone 39%. Agreed on 55% of calls. 62 confident mistakes (fg->go ×16, go->fg ×3, go->punt ×4, punt->fg ×8, punt->go ×31).

On the 121 disagreements, his calls were expected to leave a 24.5% average win chance and the engine's 26.1%. After his calls the team actually stood at 24.8%.

Costliest calls:

- 2024 wk 10 CAR vs NYG, Q4 4:40, up 3, 4th & 2 at own 17: punt (engine: go), cost 11.0 WP pts, 100% of replicates agree.
- 2026 wk 3 CAR vs CLE, Q3 13:26, down 7, 4th & 2 at opp 22: fg (engine: go), cost 9.9 WP pts, 100% of replicates agree.
- 2024 wk 13 CAR vs TB, Q3 5:42, up 3, 4th & 4 at own 18: punt (engine: go), cost 6.3 WP pts, 95% of replicates agree.

Andy Reid — B+

1369 fourth downs in 226 games (2014–2026). Went for it 15%; the engine would have gone 32%. Agreed on 52% of calls. 330 confident mistakes (fg->go ×92, fg->punt ×2, go->fg ×5, go->punt ×6, punt->fg ×27, punt->go ×198).

On the 659 disagreements, his calls were expected to leave a 65.8% average win chance and the engine's 67.6%. After his calls the team actually stood at 66.2%.

Costliest calls:

- 2025 wk 9 KC vs BUF, Q2 0:06, down 11, 4th & 1 at opp 1: fg (engine: go), cost 15.1 WP pts, 100% of replicates agree.
- 2023 wk 1 KC vs DET, Q4 5:16, down 1, 4th & 4 at own 31: punt (engine: go), cost 13.7 WP pts, 100% of replicates agree.
- 2025 wk 13 KC vs DAL, Q3 7:12, down 3, 4th & 4 at opp 44: punt (engine: go), cost 12.3 WP pts, 100% of replicates agree.

Zac Taylor — B+

831 fourth downs in 127 games (2019–2026). Went for it 18%; the engine would have gone 35%. Agreed on 53% of calls. 185 confident mistakes (fg->go ×68, fg->punt ×1, go->fg ×1, go->punt ×3, punt->fg ×3, punt->go ×109).

On the 391 disagreements, his calls were expected to leave a 41.9% average win chance and the engine's 43.7%. After his calls the team actually stood at 42.0%.

Costliest calls:

- 2022 wk 2 CIN vs DAL, Q4 1:09, tied, 4th & 2 at own 16: punt (engine: go), cost 18.0 WP pts, 100% of replicates agree.
- 2020 wk 15 CIN vs PIT, Q4 2:23, up 7, 4th & 4 at own 41: punt (engine: go), cost 12.9 WP pts, 100% of replicates agree.
- 2019 wk 16 CIN vs MIA, Q2 10:51, down 14, 4th & 2 at opp 2: fg (engine: go), cost 10.7 WP pts, 100% of replicates agree.

Mike McCarthy — B+

1141 fourth downs in 175 games (2014–2026). Went for it 20%; the engine would have gone 35%. Agreed on 54% of calls. 244 confident mistakes (fg->go ×94, fg->punt ×3, go->fg ×3, go->punt ×5, punt->fg ×8, punt->go ×131).

On the 521 disagreements, his calls were expected to leave a 49.5% average win chance and the engine's 51.3%. After his calls the team actually stood at 49.9%.

Costliest calls:

- 2017 wk 13 GB vs TB, Q4 2:03, down 3, 4th & 1 at opp 5: fg (engine: go), cost 23.6 WP pts, 100% of replicates agree.

- 2014 wk 6 GB vs MIA, Q4 4:13, down 7, 4th & 6 at opp 12: fg (engine: go), cost 12.2 WP pts, 100% of replicates agree.
- 2014 wk 20 GB vs SEA, Q2 9:42, up 13, 4th & 1 at opp 22: fg (engine: go), cost 11.5 WP pts, 100% of replicates agree.

Raheem Morris — B+

331 fourth downs in 49 games (2020–2026). Went for it 23%; the engine would have gone 35%. Agreed on 58% of calls. 62 confident mistakes (fg->go ×22, fg->punt ×1, go->fg ×2, go->punt ×1, punt->fg ×9, punt->go ×27).

On the 138 disagreements, his calls were expected to leave a 49.7% average win chance and the engine's 51.7%. After his calls the team actually stood at 49.5%.

Costliest calls:

- 2024 wk 10 ATL vs NO, Q4 0:07, down 3, 4th & 4 at opp 43: go (engine: fg), cost 34.0 WP pts, 100% of replicates agree.
- 2025 wk 10 ATL vs IND, Q4 7:02, up 1, 4th & 7 at own 41: punt (engine: go), cost 9.9 WP pts, 100% of replicates agree.
- 2024 wk 2 ATL vs PHI, Q2 0:09, down 4, 4th & 4 at opp 4: fg (engine: go), cost 9.8 WP pts, 100% of replicates agree.

DeMeco Ryans — B+

453 fourth downs in 61 games (2023–2026). Went for it 16%; the engine would have gone 28%. Agreed on 58% of calls. 91 confident mistakes (fg->go ×36, go->fg ×2, go->punt ×2, punt->fg ×8, punt->go ×43).

On the 188 disagreements, his calls were expected to leave a 51.0% average win chance and the engine's 52.9%. After his calls the team actually stood at 51.1%.

Costliest calls:

- 2025 wk 9 HOU vs DEN, Q4 1:00, tied, 4th & 6 at own 17: punt (engine: go), cost 11.4 WP pts, 100% of replicates agree.
- 2026 wk 2 HOU vs CIN, Q3 7:33, down 7, 4th & 1 at opp 40: fg (engine: go), cost 7.7 WP pts, 100% of replicates agree.
- 2023 wk 9 HOU vs TB, Q4 14:15, down 1, 4th & 9 at opp 9: go (engine: fg), cost 7.0 WP pts, 100% of replicates agree.

Sean McVay — B+

1119 fourth downs in 169 games (2017–2026). Went for it 17%; the engine would have gone 31%. Agreed on 55% of calls. 245 confident mistakes (fg->go ×95, fg->punt ×3, go->fg ×1, go->punt ×9, punt->fg ×9, punt->go ×128).

On the 509 disagreements, his calls were expected to leave a 56.6% average win chance and the engine's 58.4%. After his calls the team actually stood at 56.7%.

Costliest calls:

- 2022 wk 18 LA vs SEA, Q4 1:08, tied, 4th & 2 at own 33: punt (engine: go), cost 17.3 WP pts, 100% of replicates agree.
- 2023 wk 4 LA vs IND, Q4 1:44, tied, 4th & 5 at own 30: punt (engine: go), cost 11.4 WP pts, 100% of replicates agree.
- 2019 wk 16 LA vs SF, Q4 2:36, down 3, 4th & 6 at opp 34: fg (engine: go), cost 11.3 WP pts, 100% of replicates agree.

Ben Johnson — B

164 fourth downs in 23 games (2025–2026). Went for it 30%; the engine would have gone 42%. Agreed on 57% of calls. 27 confident mistakes (fg->go ×11, go->fg ×2, punt->fg ×1, punt->go ×13).

On the 71 disagreements, his calls were expected to leave a 49.4% average win chance and the engine's 51.3%. After his calls the team actually stood at 49.3%.

Costliest calls:

- 2025 wk 18 CHI vs DET, Q4 1:55, tied, 4th & 5 at own 31: punt (engine: go), cost 9.7 WP pts, 100% of replicates agree.
- 2025 wk 1 CHI vs MIN, Q2 0:28, up 4, 4th & 2 at opp 24: fg (engine: go), cost 7.2 WP pts, 100% of replicates agree.
- 2025 wk 6 CHI vs WAS, Q4 6:12, down 2, 4th & 2 at own 17: punt (engine: go), cost 7.1 WP pts, 100% of replicates agree.

Jim Harbaugh — B

384 fourth downs in 56 games (2014–2026). Went for it 16%; the engine would have gone 28%. Agreed on 57% of calls. 80 confident mistakes (fg->go ×31, go->fg ×1, go->punt ×1, punt->fg ×4, punt->go ×43).

On the 164 disagreements, his calls were expected to leave a 54.2% average win chance and the engine's 56.2%. After his calls the team actually stood at 54.4%.

Costliest calls:

- 2026 wk 2 LAC vs LV, Q4 8:26, down 3, 4th & 2 at own 28: punt (engine: go), cost 11.1 WP pts, 100% of replicates agree.
- 2014 wk 9 SF vs LA, Q4 4:26, down 3, 4th & 4 at own 27: punt (engine: go), cost 10.4 WP pts, 100% of replicates agree.
- 2025 wk 3 LAC vs DEN, Q3 5:38, down 7, 4th & 6 at opp 6: fg (engine: go), cost 9.4 WP pts, 100% of replicates agree.

John Harbaugh — B

1390 fourth downs in 212 games (2014–2026). Went for it 18%; the engine would have gone 33%. Agreed on 55% of calls. 327 confident mistakes (fg->go ×88, fg->punt ×1, go->fg ×8, go->punt ×7, punt->fg ×30, punt->go ×193).

On the 625 disagreements, his calls were expected to leave a 58.0% average win chance and the engine's 59.9%. After his calls the team actually stood at 58.3%.

Costliest calls:

- 2015 wk 3 BAL vs CIN, Q4 13:32, down 7, 4th & 2 at opp 2: fg (engine: go), cost 17.4 WP pts, 100% of replicates agree.
- 2015 wk 16 BAL vs PIT, Q4 3:05, up 3, 4th & 2 at opp 44: punt (engine: go), cost 15.3 WP pts, 100% of replicates agree.
- 2015 wk 12 BAL vs CLE, Q4 1:28, tied, 4th & 6 at own 24: punt (engine: go), cost 14.9 WP pts, 100% of replicates agree.

Jesse Minter — Incomplete

22 fourth downs in 4 games (2026–2026). Went for it 18%; the engine would have gone 32%. Agreed on 59% of calls. 5 confident mistakes (fg->go ×1, punt->go ×4).

On the 9 disagreements, his calls were expected to leave a 79.7% average win chance and the engine's 81.9%. After his calls the team actually stood at 79.2%.

Costliest calls:

- 2026 wk 3 BAL vs DAL, Q4 7:40, down 4, 4th & 5 at own 45: punt (engine: go), cost 6.1 WP pts, 100% of replicates agree.
- 2026 wk 2 BAL vs NO, Q4 8:14, tied, 4th & 1 at own 37: punt (engine: go), cost 4.6 WP pts, 100% of replicates agree.
- 2026 wk 3 BAL vs DAL, Q2 4:48, up 4, 4th & 6 at opp 9: fg (engine: go), cost 4.4 WP pts, 100% of replicates agree.

Robert Saleh — B

547 fourth downs in 72 games (2021–2026). Went for it 21%; the engine would have gone 34%. Agreed on 53% of calls. 124 confident mistakes (fg->go ×42, fg->punt ×1, go->fg ×2, go->punt ×4, punt->fg ×2, punt->go ×73).

On the 259 disagreements, his calls were expected to leave a 27.1% average win chance and the engine's 28.7%. After his calls the team actually stood at 27.0%.

Costliest calls:

- 2024 wk 4 NYJ vs DEN, Q4 4:09, down 1, 4th & 8 at opp 49: punt (engine: go), cost 9.0 WP pts, 100% of replicates agree.

- 2023 wk 8 NYJ vs NYG, Q4 9:30, down 3, 4th & 7 at opp 46: punt (engine: go), cost 6.9 WP pts, 100% of replicates agree.
- 2023 wk 8 NYJ vs NYG, Q3 3:36, down 3, 4th & 1 at own 32: punt (engine: go), cost 6.9 WP pts, 100% of replicates agree.

Aaron Glenn — B

160 fourth downs in 21 games (2025–2026). Went for it 27%; the engine would have gone 32%. Agreed on 50% of calls. 41 confident mistakes (fg->go ×8, go->punt ×2, punt->fg ×3, punt->go ×28).

On the 80 disagreements, his calls were expected to leave a 19.4% average win chance and the engine's 21.0%. After his calls the team actually stood at 19.6%.

Costliest calls:

- 2025 wk 6 NYJ vs DEN, Q4 10:23, up 1, 4th & 1 at own 30: punt (engine: go), cost 10.3 WP pts, 100% of replicates agree.
- 2025 wk 1 NYJ vs PIT, Q4 3:21, up 1, 4th & 5 at own 26: punt (engine: go), cost 9.9 WP pts, 100% of replicates agree.
- 2026 wk 4 NYJ vs CHI, Q2 8:20, down 7, 4th & 5 at opp 18: fg (engine: go), cost 6.0 WP pts, 100% of replicates agree.

Mike Vrabel — B

810 fourth downs in 129 games (2018–2026). Went for it 17%; the engine would have gone 32%. Agreed on 55% of calls. 197 confident mistakes (fg->go ×54, fg->punt ×1, go->fg ×4, go->punt ×4, punt->fg ×12, punt->go ×122).

On the 365 disagreements, his calls were expected to leave a 46.4% average win chance and the engine's 48.5%. After his calls the team actually stood at 46.4%.

Costliest calls:

- 2019 wk 2 TEN vs IND, Q4 0:13, down 2, 4th & 2 at opp 45: go (engine: fg), cost 44.8 WP pts, 100% of replicates agree.
- 2026 wk 4 NE vs BUF, Q4 6:45, up 1, 4th & 4 at own 42: punt (engine: go), cost 14.8 WP pts, 100% of replicates agree.
- 2023 wk 1 TEN vs NO, Q4 2:20, down 4, 4th & 6 at opp 11: fg (engine: go), cost 11.6 WP pts, 100% of replicates agree.

Sean Payton — C+

1227 fourth downs in 194 games (2014–2026). Went for it 16%; the engine would have gone 36%. Agreed on 53% of calls. 301 confident mistakes (fg->go ×87, fg->punt ×1, go->fg ×6, go->punt ×6, punt->fg ×9, punt->go ×192).

On the 578 disagreements, his calls were expected to leave a 52.0% average win chance and the engine's 54.2%. After his calls the team actually stood at 52.3%.

Costliest calls:

- 2024 wk 4 DEN vs NYJ, Q4 2:40, up 1, 4th & 4 at own 23: punt (engine: go), cost 23.7 WP pts, 100% of replicates agree.
- 2015 wk 17 NO vs ATL, Q4 1:55, tied, 4th & 3 at own 21: punt (engine: go), cost 18.2 WP pts, 100% of replicates agree.
